

EE Week Special Feature: Weather Connections to the Ocean

Broadcast meteorologists from across the country explain the ocean's impact on local weather

As part of National Environmental Education Week's 2011 theme, [Ocean Connections](#), broadcast meteorologists from across the United States have contributed videos explaining the ocean's role in weather in their regions. These meteorologists participate in [Earth Gauge®](#), a sister program of National Environmental Education Week that provides weathercasters with free environmental information and stewardship tips they can share with their viewers.

The National Environmental Education Foundation (NEEF) provides knowledge to trusted professionals who, with their credibility, amplify messages to national audiences to solve everyday environmental problems. Together, we generate lasting positive change.

NEEF partners with professionals in health, education, media, business and public land management to promote daily actions for helping people protect and enjoy the environment. Through our primary programs - Classroom Earth, National Public Lands Day, National Environmental Education Week, Business and Environment, Earth Gauge(r) and Health & Environment - we offer Americans knowledge to live by. To learn more, call (202) 833-2933 or visit <http://www.neefusa.org>.
